Office Hours: or by appointment

PLEASE SCHEDULE YOUR VISIT DURING OFFICE HOURS VIA CALENDLY

COURSE DESCRIPTION AND OBJECTIVES

This course introduces students to the key concepts of feminist political economy, a vibrant field of economic analysis, grass-roots activism, and policy-making. The structure of the course lays bare the distinction between feminist political economy and gendered political economy, enabling students to acquire analytical tools for gender-sensitive policy work but also to reflect critically on their use. Throughout the semester we will explore tensions between feminist interventions that seek to recast the roles and positions of gendered and racialized subjects in economic thought and in the global political economy – and gender-informed policies which increasingly view women as significant contributors to economic activity yet remain wedded to the existing frameworks of its analysis.

In a similar vein, the readings will also encourage reflection on the limits of feminist political economy itself, still a field that grapples with nuances of intersectionality and biases of knowledge production in the Anglo-American academe. By thinking about feminist political economy as an unfinished method of “making the invisible visible,” we will consistently seek to uncover layers of invisible labor in its relation to global economic processes.

COURSE REQUIREMENTS AND UNIVERSITY POLICIES

Grade will be based on three components – class participation and attendance (10%); a diary kept throughout the semester (30 %); and a research paper (6,000-7,000 words) on a pre-approved topic (60%). A preliminary research topic should be submitted by February 11 (5%), a detailed research proposal should be submitted by March 25 (5%), and the final paper turned in by April 27 (50%). Each component in this process will be graded.

Attendance/presence in every class is expected. Similarly, it is expected that students will come to class having done all the readings and well prepared to contribute to discussions in a meaningful way. Brief questions (no more than 3) for class discussion should be submitted to the entire class in advance of our weekly meetings. The quality of the questions will be taken into consideration when finalizing the grade for the course.

Accommodations will be made for students who need to miss classes for health reasons (with documentation), religious holidays, University of Florida official functions or important conferences. Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies. [Click here to read the university attendance policies.](#)

Grading Scale

Grading scale is 94-100 A; 90-93 A-; 87-89 B+; 84-86 B; 80-83 B-; 77-79 C+; 74-76 C; 70-73 C-; 67-69 D+; 64-66 D; 60-63 D- .

For current academic regulations on - among other topics - academic honesty, attendance and grades and grade point averages for graduate students at the University of Florida please see [this website in the University Catalog.](#)

Students who believe that they will not be able to complete all the requirements for the course in due time have to discuss an “I” (Incomplete) grade with the instructor *before the final paper is due*. Students will have to sign an “[Incomplete Contract](#)” and complete all their requirements by a date set (in agreement with the professor) in that contract. Students should be aware that “I” grades become punitive after one term.

Students with Disabilities

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center. [Click here to get started with the Disability Resource Center](#). It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

Course Evaluations

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

REQUIRED AND RECOMMENDED BOOKS

Most of the readings (including many of the recommended readings) are available electronically – either in Files on Canvas or as E-book through University of Florida Library.

WEEKLY OUTLINE

Week 1, January 7

WHAT IS FEMINIST POLITICAL ECONOMY?

Griffin, Penny. "[Gender and the Global Political Economy](#)." Oxford Research Encyclopedia of International Studies. 22. Oxford University Press.
